Troubles or concerns with your current glasses? _____

Desires for next pair of glasses: _____

Pupil Dilation:

Dilation is standard procedure for a comprehensive eye examination. Dilation assists in the detection of glaucoma, cataracts, diabetic and hypertensive retinal changes, retinal holes or tears, and some types of tumors and headaches. Dilating drops enlarge the size of the pupil and allows the doctor a more thorough examination of the retina(back of the eye). The side effects are light sensitivity for 4 to 6 hours and trouble focusing up close for 2 to 3 hours. It is possible, though unlikely, that a dilation could cause a sudden rise in eye pressure. If the doctor determines you are at risk your pupils will not be dilated. Most people are able to drive home, however, if you are uncomfortable driving, or if you feel unsafe driving, please arrange for someone else to drive you.

I AGREE to dilation ___ Today ___ Not Today signature: _____ Date: _____

iWellness:

The iWellness is a quick non-invasive scan that allows Dr. Swift to see beneath the surface of your retina. This scan can help detect the beginning stages of various eye diseases. For more information please read attached sheet. The iWellness scan is typically not covered by vision or medical insurance. The \$39 charge will be added to the cost of your visit today.

I AGREE to iWellness ____YES ____NO

Your eyesight is priceless and we are here to protect it!

Vision threatening diseases such as glaucoma, macular degeneration and diabetic retinopathy often have no outward signs or symptoms in the early stages, so our practice has begun using state-of-the-art technology to assess the health of your eyes.

The iWellnessExam™ is a quick, non-invasive scan that allows our doctors to see beneath the surface of your retina. This unique technology can help our doctors detect vision threatening and systemic diseases in their very early stages, when they are most treatable.

As part of your pre-exam testing, our technician will perform the iWellnessExam which your doctor will review with you during your examination today. The \$39 charge is typically not covered by your vision or medical insurance, so this will be added into the cost of your visit today. Any questions you have about iWellnessExam and the results of the test can be discussed with the doctor during your examination.

Thank you for choosing our practice to protect the health of your eyes!
